

Pancomp—What our customers say about us

Piepenbrock Security Services, Germany

"We are extremely pleased with every aspect of the Pancomp products and solutions quality, the reliability of the promised performance, the service and support as well as with the cooperation with Pancomp. The Pancomp solution features have met all our expectations; they are easy to implement and handle and include relevant and effective tools to improve our efficiency. It is easy for me to recommend Pancomp as a dependable partner as well as the Pancomp solutions as such."

Friis Rengøring Aps, Denmark

"We use Pancomp solution because we simply have won huge orders with the help of the solution and partnership with Pancomp. Pancomp has clearly been an asset, and instrumental in increasing our customer relationships and earnings."

Meranti cleaning services, Finland

"Today we are able to give the operative management the right tools and things are done right first time. We have managed to keep the promises made to clients. Personally I have been more and more able to focus on developing the company now that I do not have to take part in the operative activities."

Fraport AG, Germany

"The Pancomp products have proved as an ideal support for our services provided at the airport. We are fully satisfied with the quality and reliability of the product."

WE MAKE SERVICES TRANSPARENT

Is trust your key success factor?

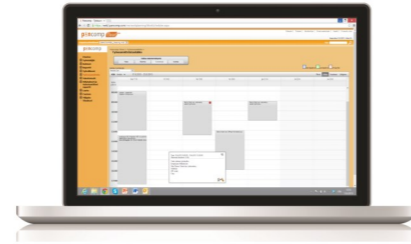

Pancomp Secure

Guard Smart phone App for Android and iOS

Easy to use App for smart phones for real time scanning of checkpoints and reporting of deviations.

Manage Guard Tours

Easy Guard tour planning and scheduling.
Create checkpoints and single or recurring tours.

Real Time Guard Tour Monitoring

Real time information when checkpoint checked. No need to download data from devices. All data provided automatically to a cloud based server. Available data can be accessed with a web-browser.

Log Activities at Site and Report

When deviations occur, the Guard may use with the smart phone the easy to use Log Activity functionality on PANCOMP Secure App. Pre-set activities, free text field and the ability of taking pictures creates comprehensive reporting possibilities.

Real Time Client UI

The real time client user interface enables true transparency on service operations toward the service buyer. The PANCOMP Secure Real Time Client reports enable true transparency towards your clients.

Alarms and automatic reporting

The feature enables a Security Service company to react immediately when deviations occur e.g. in no show situations. Don't lose clients in vain!

Forget about offline systems!

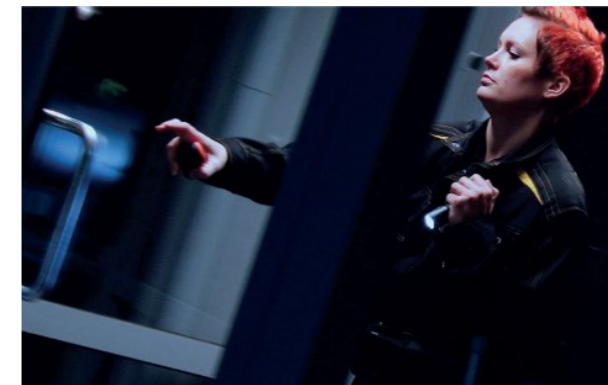

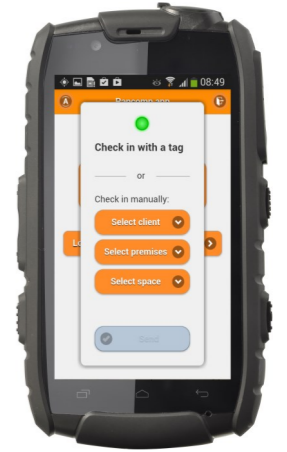

PANCOMP Secure for real time operational and service transparency.

Would a Real Time System add to your reliability?

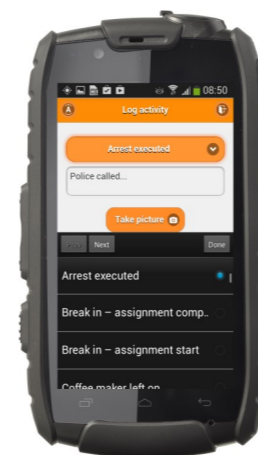

Pancomp Secure

Time is money—make sure you manage yours well with Pancomp Secure!

Traditional reporting systems provide client and site level information several days after events have taken place. In the Security Business it is vital to know that the services sold are also provided as agreed. Pancomp helps monitor the Client sites in Real Time on a daily level. If necessary, it is possible to deal with the situation immediately.

The system helps you to receive up to date information about the site security, progress of work, schedule, and billing basis. All of this while increasing your reputation as a reliable partner and improving your chances of gaining new clients. Pancomp Secure is a modern and unique solution for managing your client premises and your services.

The Pancomp App enables the Guard to check different points and report from site in real time. All data will be automatically transmitted to PANCOMP cloud based server. The real time data can be accessed with a web browser and reports can be easily viewed and utilized.

PANCOMP Secure is a scalable solution suitable for any size of guard tour businesses.
